XXII International Bios Forum and interregional Youth Bios Olympiad 2017

September 18–26, 2017

Goals of the XXII International Bios Forum and interregional Youth Bios Olympiad 2017

is to consolidate the spirit of biopolitics and bioculture in young people and future generations.

The mission of XXII Bios Forum and Bios Olympiad is to promote the following objectives:

- ❖ Development of interregional and international interaction among young people.
- ❖ Establishment and promotion of legal bio-culture and bio-centric values.
- ❖ Development of integral assessment technologies for environmental safety of Russian regions and cities
- ❖ Identification and promotion of talented young people and the use of goods produced by their innovative activities.
- ❖ Promotion of environmental policy of St. Petersburg and achievements of St. Petersburg youth.
- ❖ Development of mental abilities of young people
- ❖ Promotion of healthy lifestyle, improvement of moral and psychological condition of citizens based on principles of bio-politics
- ❖ Development of new approaches and innovative methods to deal with environmental problems.
- ❖ Assistance in establishing creative youth programs aimed at the implementation of national projects in the field of bio-culture and bio-environment.
- ❖ Creation of data banks of environmental problems.
- ❖ Establishment of "Green society" based on bio-environmental and bio-cultural values.
