The goal of the XXVI International Bios Forum and the 2021 Youth Bios Olympiad: strengthening the foundations and spirit of Bio-politics and Bio-culture

The mission of the XXVI Bios Forum and Bios Olympiad is to contribute to the solution of the following tasks:

- ❖ Development of interregional and international cooperation of young people with scientists of the older generation.
- ❖ Formation and popularization of a cyclical economy based on legal bio-culture and promotion of biocentric values in society.
- ❖ Development of technologies for integrated estimation of technosphere security of regions and cities of Russia.
- ❖ Identifying and promoting talented young people and using the products of their innovative activities.
- ❖ Promotion of the environmental policy of St. Petersburg and the achievements of St. Petersburg's youth.
- ❖ Development of intellectual abilities of young people.
- ❖ Promotion of a healthy lifestyle, improvement of the moral and psychological state of citizens based on the principles of bio-policy and bio-culture.
- ❖ Development of new approaches and innovative methods for solving environmental problems.
- ❖ Assistance in the creation of creative youth programs aimed at the implementation of national projects of the bio-environment and bio-culture.
- ❖ Creation a data banks of environmental problems based on a geoinformation.
- ❖ Building a "Green society" with the help of spiritual and moral interethnic cultural values.
