## **XXVI International Bios Forum 2021**

is dedicated to the memory of the outstanding scientist and ideological inspirer Shishkin Alexander (09.12.1940-30.07.2021). He is founder and scientific director for a long time of the Trans-regional Ecological Club of students, postgraduate students and school-boys of the Baltic & Ladoga region. Also he founded programs of International Bios forums, Youth Bios Olympiads and Bios schools. A.I. Shishkin was the professor of the Higher School of Technology & Energy of the St. Petersburg State University of Industrial Technologies and Design and of Peter the Great's St. Petersburg Polytechnic University. He became renowned as the head of the leading scientific and teaching school of St. Petersburg and as academic of the International Academy of Sciences, Ecology, Human Safety and Nature.

**Saint Petersburg, September 30 - October 5, 2021**

### **The bios-forum includes:**

- **Opening ceremony, registration of participants;**
- **International Scientific Conference "Innovative research in the field of bio-environment";**
- **Closing ceremony, awarding of participants;**

The XXVI International Bios Forum and the Youth Bios Olympiad 2021 will be held on the initiative of the Presidential Fund of Grants, the St. Petersburg Branch of the Russian Academy of Sciences, Biopolitical International Organization (Greece), Peter the Great's St. Petersburg Polytechnic University, St. Petersburg State University of Industrial Technologies and Design, St. Petersburg State University of Aerospace Instrumentation, the Committee of Public Relations, Science and Higher Education Committee, Environmental Management, Protection & Safety Committee, Education Committee of the Administration of St. Petersburg, «Information – Methodological Centers» of the Krasnoselsky, Kolpinsky and Moskovsky districts of St. Petersburg, the Committee of Youth Policy and Cooperation with Public Organizations of St. Petersburg, St. Petersburg Scientific Research Center for Environmental Safety of Russian Academy of Sciences, the Education Committee of the Leningrad Region, JSC ILIM Group, «ECO-POTENTIAL» Academy, Russian Creative Union of Workers of Culture, Public Arctic Academy of Sciences, St. Petersburg branch of Environmental Journalism Guild of Media Union Russia, Russian cross-industry Association of Employers in the environmental protection "Rus-recycling", Scientific Research "XXI century" Fund, Trans-regional Ecological Club of students, postgraduate students and school-boys of the Baltic & Ladoga region, Baltic Management of Technical Support for Supervision on the sea, Center of Construction Geo composite Materials, Structures and Technologies .

The international and Trans-regional Youth Bios Forum challenges to discuss the problems of modern bio-policy and the environment, to have an opportunity of environmental control over technological progress and to create the conditions for a new bioculture – the culture of the XXI century, which is based on the best achievable technologies.

## **International Scientific Conference "Innovative researches in bio-environment field"**

The scientific conference will review and discuss results of the practical environmental and social researches and developments in the bio-environment. Also the theoretical, practical and review works which are reflecting the degree of participation and the present level of young people's achievements in the field of: environmental monitoring; protection of natural resources, public environmental control of pollution sources of ecosystem, cross-border rationing of the stress in ecosystems.

Students, postgraduates and young scientists from Russian and foreign Universities and Research Centers are invited to participate in the conference.

The conference will take place in St. Petersburg Scientific Center of Russian Academy of Science on October 1, 2021.

To participate in the conference you must register online on the club's website <http://bios-club.spb.ru/> in the period: 2 – 10 September 2021. Then you must to send a file with a scientific article from September 11 - 16, 2021 (the requirements for design of the article you can download on club's website) to email address: [biosforum.spb@gmail.com](mailto:biosforum.spb@gmail.com) for publication in the collection. Articles, that won't be to the standard of requirements & topics of the conference, will be throw out. For discussion at the conference, you need to prepare a presentation.

### **Detailed information about the time and place of events will be reported in the program and sendings.**

Participation in the Bios Olympiad program and article publication in the collection are free of charge. Accommodation and meals for non-resident participants in St.Petersburg is taking for their own money. Organizers assist in accommodation of participants (transfer, hotel reservation) according to the advance requests. Requests for hotel reservation for non-resident participants are submitted during registration and organized at [biosforum.spb@gmail.com](mailto:biosforum.spb@gmail.com) until September 10, 2021.
